

STUDENT VOICE UPDATE Term 2 2018

UNIFORM TRANSITION – SUMMER TO WINTER

The uniform transition between the summer and the winter uniforms was a big success! The two-week transition week gave enough time for students to get used to the uniform or buy the uniform, if they hadn't already done so. Only a few students are getting uniform strikes, mainly because of ties or socks. The Year Level Leaders are reminding students of the uniform guidelines. Girls have the choice of wearing a skirt, pants or shorts in the normal uniform and boys have the choice between pants and shorts. When wearing the sports uniform, both genders have a choice between pants or shorts. If you have a class like Wood Tech or Science before or after Sport, make sure to bring your black leather lace-ups or you will not be able to participate in that class.

CROSS COUNTRY PRACTICE AND THE REAL THING

Students participated in a practice run around the whole school. The enthusiasm of the students showed that the event is still something they look forward to and is a friendly competition. The practice experience gave students an idea of how the run may be very hard in reality. Who's going to be the 1st person to make it? Which house will come out on top of the other houses? These were the questions during the lead up to the event.

BREAKFAST CLUB

Breakfast Club is a place where you can get the most delicious food, all made in our own Food Tech class by our Student Voice and Hospitality Leaders. If any students at CESC have siblings at Cranbourne East Primary School, they may bring them along too. We start at 8:00 am - 8:30 am. So, come along everybody and enjoy free breakfast on Mondays and Wednesdays. Don't worry about getting to class late, as we finish up more than 5 mins before the music goes. **SEE YOU GUYS THERE!**

RETIREMENT VILLAGE – YEAR 12 VCAL

The Year 12 VCAL students are currently doing work at the Hunters Green Retirement Village in Cranbourne East! This is to form part of our Unit 1 Personal Development Skills studies and also part of our Literacy units. We are developing connections with our local community, whilst demonstrating teamwork and leadership skills. We are working on a project that invites us to write a story about the residents' past lives, how they grew up, how they met their spouses and how they're enjoying their life now. It's an enjoyable experience and we're glad to have been given the opportunity to be let into their lives.

PRODUCTION

This year's production is LEGALLY BLONDE: THE MUSICAL! This musical has given us all a chance to showcase different talents in theatre, with wonderful directors who can really help this cast in excelling, developing our talents and performing to the best of our abilities. We are very excited to show everyone what we have achieved during our year of rehearsals and can't wait for our talents to shine!

VCE CAREERS EXPO

Senior VCE students recently attended an excursion to the VCE Careers Expo at Caulfield Racecourse. This provided students with the perfect opportunity to learn more about their possible career options. CESC students used this experience to gain professional information and insight on gap years, universities and the wide range of career pathways available to us, making great use of seminars and meeting people with first-hand experiences.

MEDEA EXCURSION

Year 12 VCE students recently attended an excursion to the Dandenong Drum Theatre, to experience a play of Medea as part of Unit 3 curriculum. CESC students were able to obtain an in-depth understanding of the text and learn more about the text through the question and answer sessions provided with the actors and actresses.

YEAR 9 CITY EXPERIENCE

Every term in Humanities, the Year 9 cohort studies a new topic. Depending on the topic, the teachers organise a full day trip into the city to study and learn about the topic at one of the city's venues (Year 9 City Experience Program). The excursion requires the Year 9s to arrive at the train station at a set time and travel by train with the teachers to get to the venue. I have been once and the experience was fun and the entire day ran smoothly. The city experience helps students with time management and gives us the opportunity to use a myki card.

Last term, we studied court and law. To complement this study, the Year 9s got to sit in and listen to a case in the Magistrate's Court firsthand. The Magistrate's Court was intense but really interesting. Besides going to the court, we got to separate into groups of our own choosing and walk without a teacher to a designated location in the city and back. The teachers had lots of trust in us and due to the success of last term's city experience, we get to go on another one this term.

This term, we are studying World War 1, so we are going to the Shrine of Remembrance to gather information for our assessment. The same rules are in place as last time and, just like last term, it should be a day to remember. City Experience is a fantastic idea and I think the rest of the school should try it.

Do your best and try your hardest!
